The Abduction Phenomena
An Emerging Clinical Paradigm

A two-day Master Class with
Bruce E. Fox, Ph.d, FRSM, DBSCH, DNBHE

6/7 July 2002

At the core of the Abduction Phenomenon are the traumatic and transformative memories of thousands of well-orientated individuals of being abducted and examined in unearthly and non-physical surroundings by Extra-terrestrial Biological Entities (EBE’s). The sincerity and emotional involvement of the experiencers as they tell their poignant stories and the many detailed consistencies of independent accounts makes a strong initial impression.

Coming to grips with this emerging paradigm does not require the wholesale abandonment of conventional therapeutic models, but a re-evaluation of the efficacy of traditional protocols.

In this Master Class you will learn:
- The history of the Abduction phenomena and the causative factors.
- Suggested Hypnotic models and Clinical investigative techniques.
- Post-Traumatic Stress Disorder in Abduction scenarios.
- Resolution of phobias from recall of abductions.

We will also explore:
- Transpersonal treatment approaches.
- Ethical issues in dealing with the abduction experience.
- Comparison between Near Death Experiences and UFO abductions.
- Correlations with traumatic childhoods.
- Misconceptions of the individual mind.

Bruce E. Fox Ph.D is a Registered Behavioural Therapist, Board Certified Clinical and Medical Hypnotherapist who maintains consulting practices in Miami and London. Dr Fox has also served as International Managing Director of the European Journal of Clinical Hypnosis.

Price: £164.50 (inc. VAT)
£141.00 (inc. VAT) for LCCH students/BSCH members
